Subject: EPA 2015 MSGP Expiration: PEÑUELAS VALLEY LANDFILL - PRR053203
Date: Monday, May 4, 2020 6:16:06 AM

2020-05-04

Dear NeT User,

You are receiving this email because you are associated with PEÑUELAS VALLEY LANDFILL located at CARRETERA 385 KM 4.5 BARRIO TALLABOA, PEÑUELAS, PR 00624 that has active General Permit coverage PRR053203 under EPA's 2015 Multi-Sector General Permit (MSGP) for Stormwater Discharges Associated with Industrial Activity. This email is to notify you that the current 2015 MSGP will expire on June 3, 2020, at 11:59 pm Eastern Time. EPA will be unable to issue a new permit prior to the expiration date of the 2015 MSGP, however, the 2015 MSGP will be administratively continued in accordance with the Administrative Procedure Act and 40 CFR 122.6 and remain in force and in effect for discharges that were covered prior to expiration.

Per Part 1.2.2 of the 2015 MSGP, facilities that obtain authorization to discharge under the 2015 MSGP prior to the expiration date will automatically remain covered after the 2015 MSGP expiration date until EPA issues a new MSGP, and you are authorized for coverage under the new MSGP after submission of an NOI to EPA. Facilities with coverage under the administratively continued 2015 MSGP are required to continue to comply with the permit in full.

Facilities that currently have active permit coverage or will submit a Notice of Intent (NOI) prior to June 3, 2020, at 11:59 pm Eastern Time, do not need to take further action to remain covered by the administratively continued permit; your coverage status in the NPDES eReporting Tool Multi-Sector General Permit (NeT MSGP) will automatically be changed to "Admin. Continued". EPA will notify all existing facilities once the new MSGP is issued. Your facility will have 90 days from the effective date of the new MSGP to submit a new NOI using NeT MSGP in order to obtain coverage under the new MSGP. You can access NeT MSGP at: <https://cdxnodengn.epa.gov/net-msgp> by using your Central Data Exchange (CDX) account User ID and password, and clicking on your NeT MSGP program service role. Instructions for creating a CDX account or adding the NeT MSGP program service to your existing CDX account can be accessed from the login page.

If you have questions about this email or about NeT MSGP, please refer to the [NeT Help Center](#) or e-mail NPDESereporting@epa.gov for assistance. For more information about the MSGP, please visit <https://www.epa.gov/npdes/stormwater-discharges-industrial-activities>.
